The Intensive Outpatient Program (IOP) is an outpatient department of Union General Hospital.

Licensed Mental Health Professionals provide individual, group and family therapy based on an individualized treatment plan under the supervision of a Board Certified Psychiatrist. The program is operated four days a week, Monday-Thursday.

The IOP provides a relaxed, comfortable setting where patients are encouraged to participate in group psychotherapy to promote achievement in their individualized treatment goals.

The IOP offers more than individual psychotherapy and is a step-down from a Partial Hospitalization Program or Inpatient settings.
